

## V-Café

Our V-Café solution is ideal for front and back of house placements and delivers fresh tasting coffee every time

When quality and simplicity are critical to your operation,

the V-Café is the right solution. Its unique dispensing technology brews coffee at the touch of a button and improves operational and labor efficiencies.

Its patented design allows for coffee strength adjustment as well as serving size modifications. With a wide variety of great coffee blends to choose from, it's easy to capture roast and ground flavor in every cup... every time.

NESCAFÉ® Alegria is part of the NPV family of foodservice brands and is a convenient, reliable business solution delivering an attractive variety of hot and specialty beverages. We have the people, the resources, and the product

knowledge to help you create a profitable coffee program that works for your business. This is the

total Nescafé Alegria coffee program: Smart Coffee Made Simple.

## Smart Coffee Made Simple

The Nescafé Alegria V-Café coffee dispensing system has a variety of benefits to help you serve your customer fresh hot coffee.

**Serving flexibility** - You can program to dispense a cup, a carafe, or any other vessel of your choosing.

**Easy Cleaning** - With a closed system and a patented dispensing process, cleaning and disinfecting of the equipment is simple.

**Patented Packaging** - Our packaging is unique with a clear side panel. This panel allows you to monitor the amount of coffee dispensed enabling you to order as needed with no waste.

V-Café is available in an easy to use pull handle or push button format. Please specify with your sales person which type you prefer.
